## Year in Review: 2021 Cybersecurity threat trends

In the last year, cyber criminals delivered a wave of cyber attacks that were not just highly coordinated, but far more advanced than ever before seen.

Simple endpoint attacks became complex, multi-stage operations. Ransomware attacks hit small businesses and huge corporations alike. Cryptomining attacks gave cyber criminals an easy foothold into company networks. It was a year of massive data leaks, expensive ransomware payouts, and a vast, new, complicated threat landscape. And it was a year that saw cyber criminals up their threat game in a big way.
